

## Beefy Bean Soup

1lb ground beef  
½ t chopped onion  
2 cans of tomato soup  
1 can of Pork & Beans  
1 can of Pinto Beans  
1 can of Lima Beans  
1 can of Great Northern Beans  
1 can of Sweet Corn

Brown Meat and chopped onions in skillet. While meat is browning put tomato soup in pot and add 1 can of water. Add the remaining cans of beans & corn, and stir. I pour the juice off the Lima Beans, but leave it in for the corn. When meat is cooked completely, drain the grease and add it to the pot. Bring your soup to a boil stirring often. Reduce heat and let soup simmer for about 45minutes to 1 hour. Enjoy!!

This goes great with cornbread!
